

Emerald Public School, Khategaon

Annual Report

Session 2023-24

1. Academic Performance:

The academic record of the school for the session 2023-24 was excellent. The percentage of success was very high. It was decided to work on each child. Different strategies were adopted for different types of learners. Teachers were trained and worked in planned manner to achieve the desired goals. We started taking initiatives in the direction of achieving academic excellence which were fulfilling the needs of the NEP2020. It started straight from pre-primary to senior secondary. School management support was praiseworthy.

The Academic performances are classified as follows.

a. Pre-Primary Level (From Nursery to Grade 2):

Special emphasis was given to Pre- Primary section i.e. From Nursery to Grade 2. Early Childhood Care Education (ECCE) is the core part of NEP2020. Emerald Public School has taken special initiatives in this direction by implementing Primary years' development programme. This programme was fully based on the holistic development of each child. This programme believes that activity based learning is more helpful in the overall development of the child. Under this programme activities were planned on the basis of week celebrations like Green day, Monsoon Safety session, Family Week, I know my Senses session, Together We Can session, Reading Session, My Mighty Pen Session, Sharing Week, Colour Week, First Aid Teaching Session, Sports & Gathering Meet, Story Telling session Etc. I hope all Parents must have enjoyed these week along with their kids.

b. Primary Level (From Grade 3 to 5):

Primary years of education are very crucial years of anyone's life. It starts from grade 3 to 5. The main challenges in this group are to identify the special need groups. Problems related with teen age. Peer group challenges etc. Special remedial classes were planned for SNG students. These classes were based on individual's need. There are more requirements of teacher's training and special skills. As our approach is for the holistic development, so we have started passion classes for children like Music, Drama, Dance, Art and Craft, Computers etc.

c. Middle Level (From Grade 6 to 8):

This age group is the most challenging age group among all which we call it the time of adolescence. Most of the destructive activities take place under this age group only therefore students' energy must be properly channelized. Activities must be planned in such a way that they should enjoy with learning. Sports lessons are planned with proper care. Co-Curricular activities are also planned. Inter House activities play very crucial role in this. We planned Extempore, Debate, and Character Enactment etc. Different types of Olympiads such as English, Maths, Science and G.K. Olympiads were planned for enhancing skills. Some adventure activities were also planned for this. Our junior kids went to Khiwani sanctuary, Harangaon to experience the wildlife and challenges.

Senior Level (From Grade 9 & 10):

Result of Grade 9 & 10 for this year was excellent and most of the students secured high grades in all classes.

2. Non- Academic Performance:

a. Inter House Competitions:

Inter House Competitions like Extempore, Debate, Character Enactment were organised. In sports Inter House Cricket, Kho-Kho, Badminton were organised.

c. Participation in Games:

Our students participated in many events such as Kho-Kho, Chess, Badminton etc. and secured positions at district and Division level.

3. Teacher's Training :

Our teachers are also engaged in different training programmes.
